PAIRS

**ICE DANCE**

# Why Edea

We think differently,  
we start with the skater  
and design for performance.  
Edea means...

## **Greater Feel**

Skating is about feel.  
Edea designed  
to feel the edges.

## **Innovation**

Skating is  
about new.  
Edea means  
innovation.

## **Faster to perform**

Skating is about  
performance. Edea  
designed with shorter  
break-in time.

## **Lightweight**

Skating is  
about lightness.  
Edea think and  
design light.

## **Comfort**

Skating is about  
ice time. Step  
into Edea and  
feel the hug.

## **Sharper style**

Skating is about style.  
Edea designed with  
Italian style.

Skating is a sport about expression, where art meets performance.  
It is technique and style. Style is what Italians do.  
Step into the rink ahead of your rivals.

# Anti-Shock System

PERFORM LONGER, BE SAFER

## The problem

When landing, a force up to 8 times your weight sends shockwaves through your body. Even without jumps, ice chatter creates mini-stresses, both of these creates negative energies that can lead to injuries.

## The solution

Edea's Anti-Shock System combines Noene to disperse and Poron to absorb these negative energies. Anti-Shock is integrated into the Piano and is available in Impact Insoles and Noene Anti-Shock Undersoles.

## Edea Anti-Shock means

- Minimized impact shock protecting you from potential injury
- Absorbed ice chatter for smoother glide and a more solid base
- Increased stability on landings for quicker transitions and jumps
- Reduced strain on ankles, knees, hips and the back

# Piano

**Smoother skating**  
Dual layer anti-shock system reduces impact while increasing stability

**Greater thrust**  
New lateral support for quicker, increased power transfer

**More control**  
Improved heel pocket and extra tongue tabs give an improved foot position for better feel and quicker movement

**More comfort**  
Longer boot collar for greater movement range

**Fresh skates**  
Micro-perforated air tech lining for super quick drying

**Increased flexibility**  
through two piece tongue

Finishing touches  
Fashion sole and crystals

**SUPPORT**  
EXTRA STRONG

**PERFORMANCE**  
TRIPLE QUAD JUMPS\*

Scientifically tested

Sizes: 195-310

## “Lite” anatomic insoles

Anatomically pre-formed insole  
designed specifically for Edea boots  
Sizes: 195-310

## “Latex” Flat insoles

For skaters who prefer a flat footbed.  
Ideal for beginners  
Sizes: 185-310

## Impact insoles

Anatomically pre-formed insole with  
integrated Poron material under heel  
and foot arch.  
Sizes: 225 - 310

Our innovation makes us better and different.  
 We need to be sized, fitted, shaped,  
 laced and mounted in the Edea way.

## Sizing

### THE PERFECT SIZE

In order to get the correct length you need to use the EDEA MEASURING DEVICE.

### THE PERFECT FIT

90% of feet fit our C or standard width. Edea stretchers make the final adjustment to give the perfect custom fit. Overture, Chorus, Concerto, Ice Fly, Piano and Flamenco Ice can be shaped using Edea Instant Custom Fit method.

BOOT STRETCHERS are available in sizes:

- XS 215-230
- S 235-250
- M 255-270
- L 275-290
- XL 295-310

(1 stretcher in each package)

## Mounting

Edea boots have technical soles. They need special tools and hi-low dual helix screws for secure blade mounting. Use ONLY Edea screws.

### SET OF 100 HI-LOW SCREWS

### FOR LIGHTWEIGHT BLADES SET OF 108 HI-LOW SCREWS

USE ONLY WITH LIGHTWEIGHT BLADES

### ONE DRILL BIT EXTENSION 2,5 MM.

Specially measured drill bit holder ensures accurate depth of holes. 2,5mm drill bits are used for EDEA Hi-Low screws.

### PRE-CUT FILLERS

Essential for repositioning frames. Each pack includes 20x2,5mm pre-cut carbon bars.

# Mounting stand

Stands for quick and precise blade mounting are practical and portable.
